

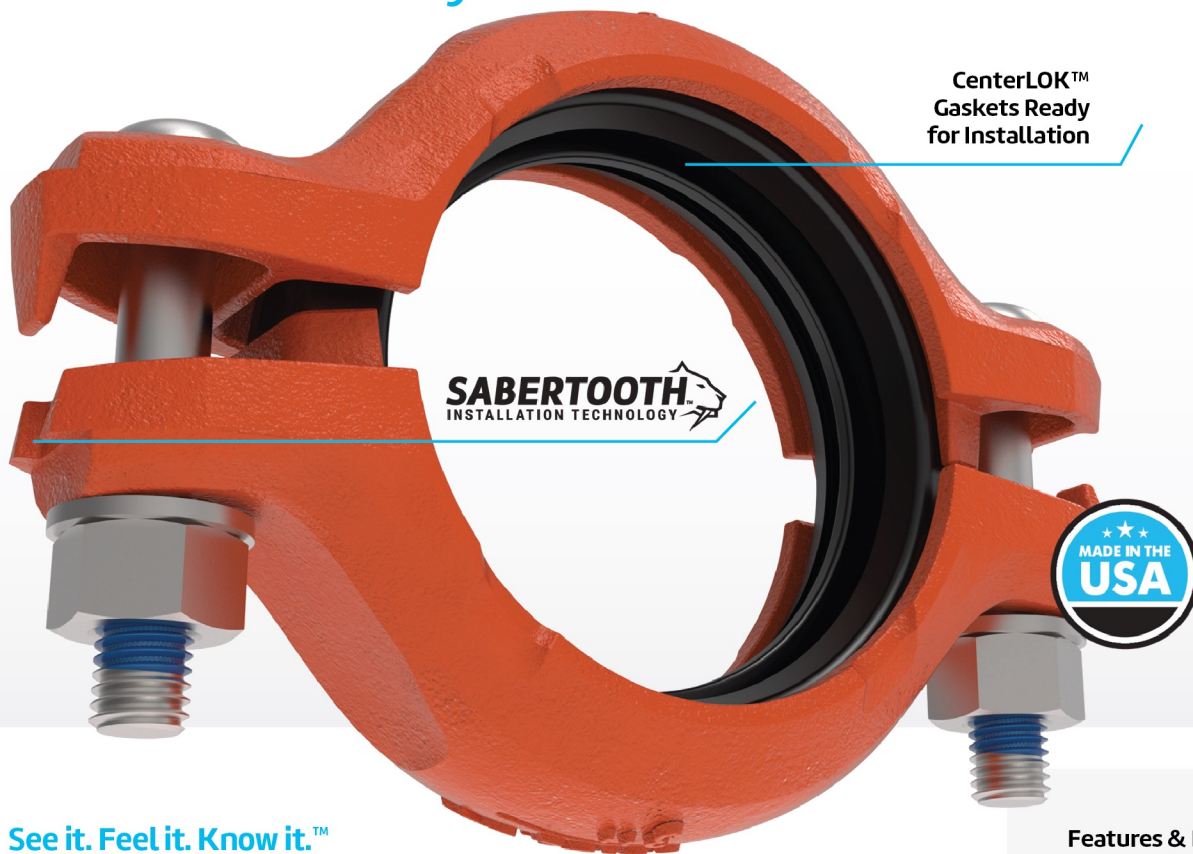

# Figure 74-CL Rigid Couplings for Mechanical Systems

CenterLOK™  
Gaskets Ready  
for Installation

**SABERTOOTH™**  
INSTALLATION TECHNOLOGY

## See it. Feel it. Know it.™

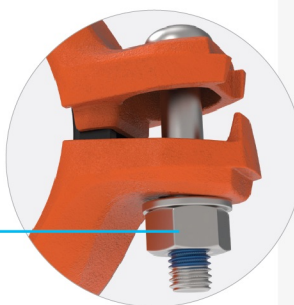

### Install Confidence.

With a touch or a quick look, you will know this coupling is installed properly, even in the dark or tight spaces. This innovative design does not require the housing pads to press together – only for the visual indicator to align.

Engineered gasket press-on feel ensures you know when it's properly positioned on the end of the pipe.

Simple, fast and dependable.

74-CL features Zn/Al flake coated hardware to prevent corrosion.

### Features & Benefits

- Sabertooth™ Installation Technology
  - Visual and Tactile Installation Verification
  - The FASTEST Rigid Coupling Installation Available
- All-new Patent-Pending Design
  - CenterLOK™ Gasket Enables Two-handed Installation
  - Simplified Tightening
  - Ready-for-Installation
